DNS Options
A delegation for this DNS server cannot be created because the authoritative parent zone cannot be found or it does not run Windows DNS server. If you are integrating with an existing DNS infrastructure, you should manually create a delegation to this DNS server in the parent zone to ensure reliable name resolution from outside the domain "ETHA.com". Otherwise, no action is required.

2.18. Review the configuration of your ETHA.com domain. Expand ETHA.com, and write down the Containers an Organizational Units (OUs) that was created by default.

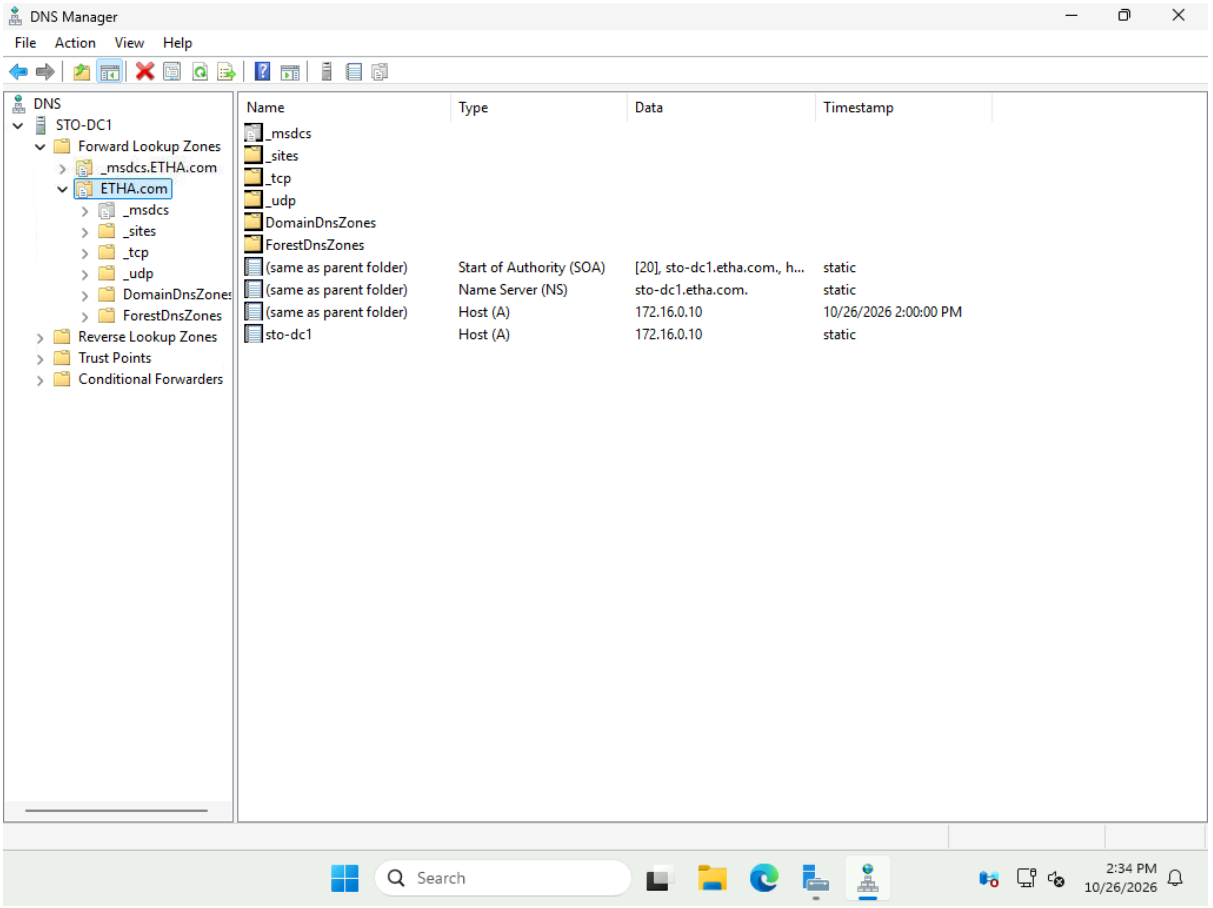

Containers:

- Builtin
- Computers
- ForeignSecurityPrincipals
- Managed Service Accounts
- Users

Organizational Units (OUs):

- Domain Controllers

Task 3. Review the DNS Server SRV records by using DNS Manager

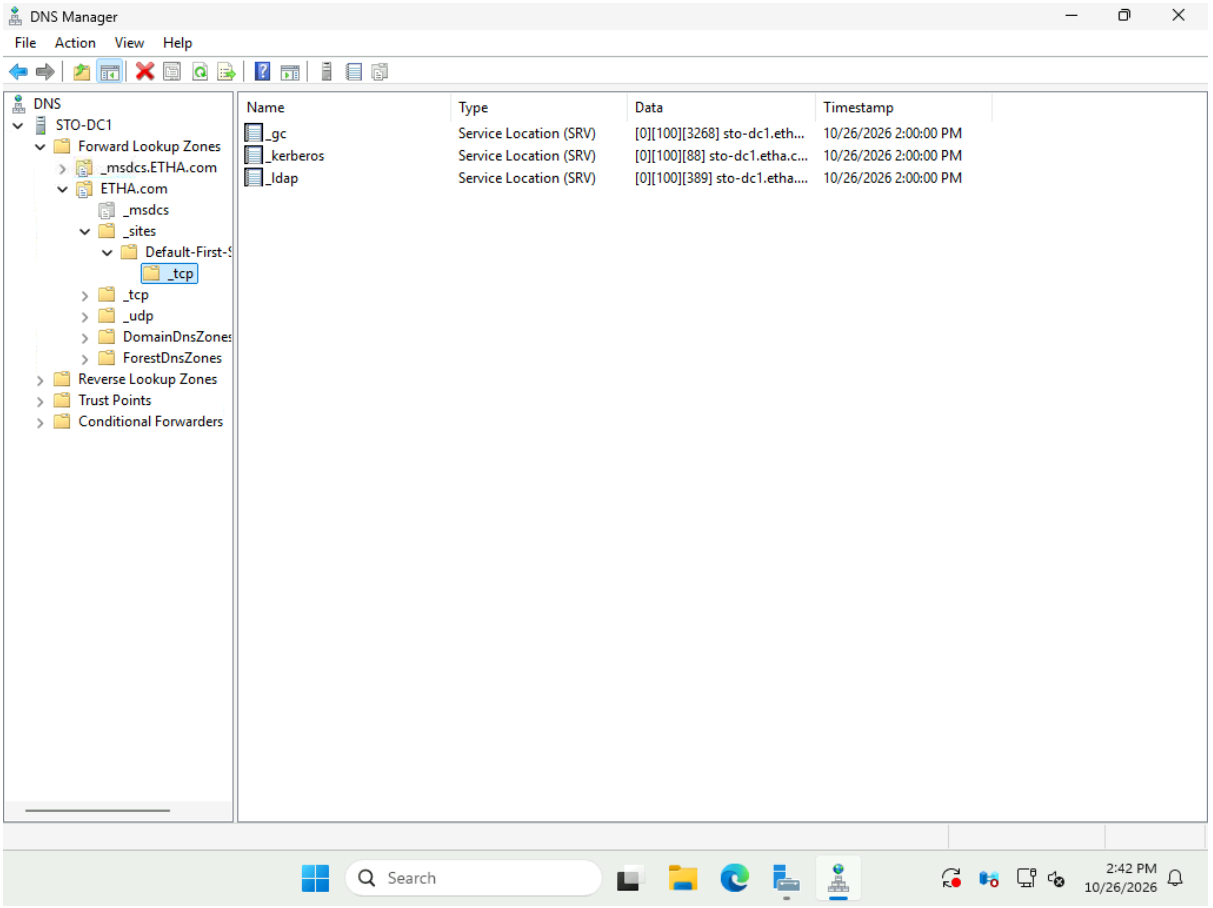

3.6. Write down the information about the following Records:

Start of Authority (SOA): `sto-dc1.etha.com.`

Serial number: `20`

Name Server (NS): `sto-dc1.etha.com.`

STO-DC1 Host (A): `172.16.0.10`

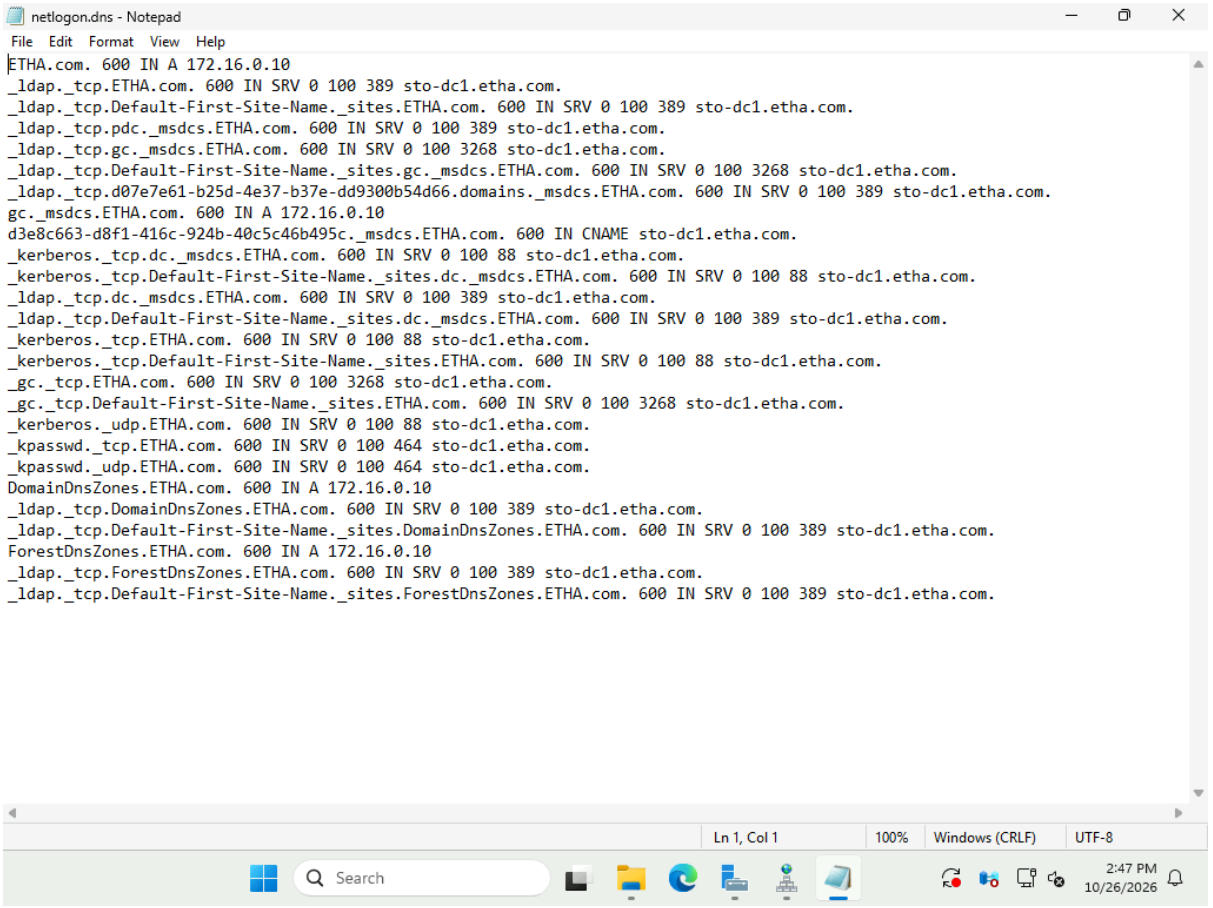

3.8. Expand _sites, expand Default-First-Site-Name, expand _tcp, and then, in the right pane, review the following records: _gc _kerberos _ldap Service Location (SRV) [0][100][3268] sto-dc1.ETHA.com. Service Location (SRV) [0][100][88] sto-dc1.ETHA.com. Service Location (SRV) [0][100][389] sto-dc1.ETHA.com. What represent the numbers [3268], [88], [389]?

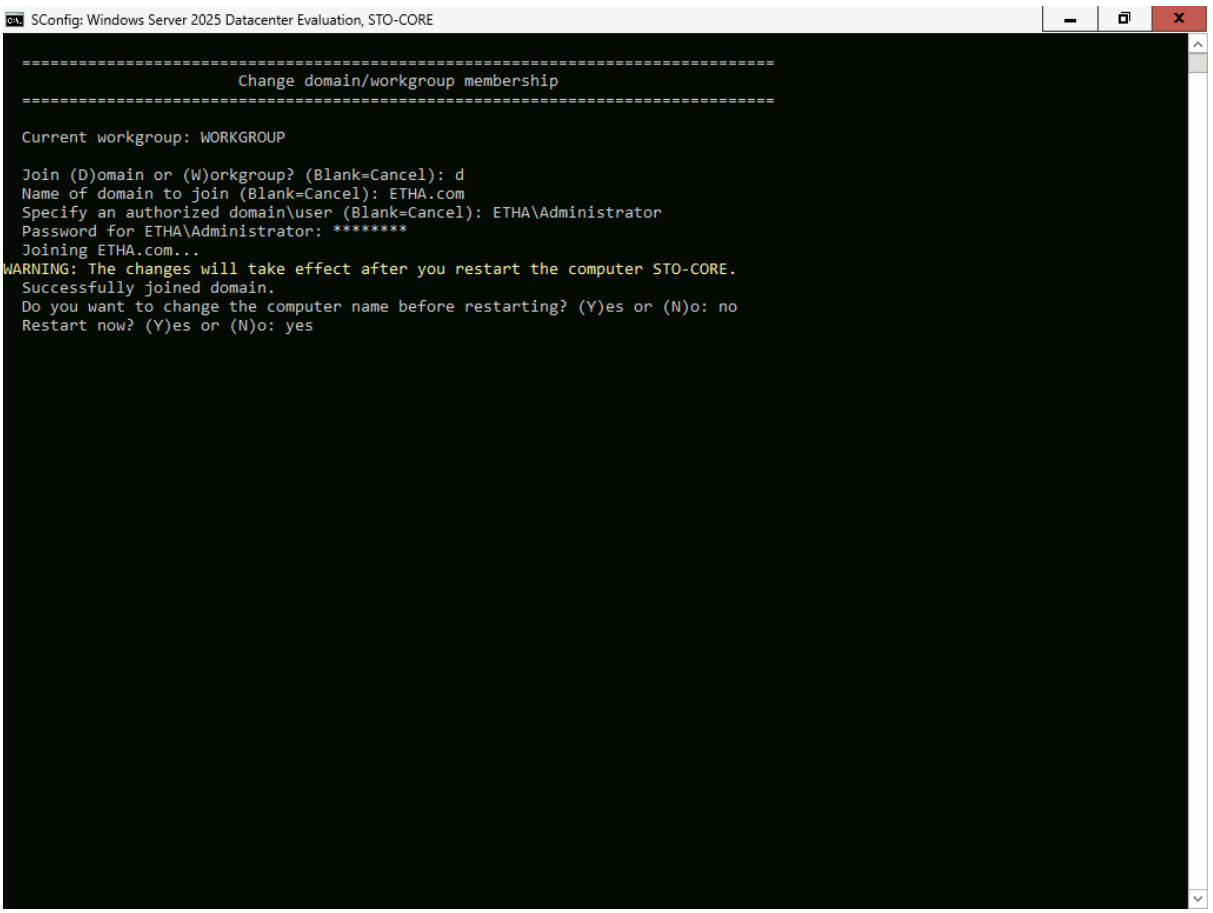

3268: Global Catalog (LDAP)

88: Kerberos authentication

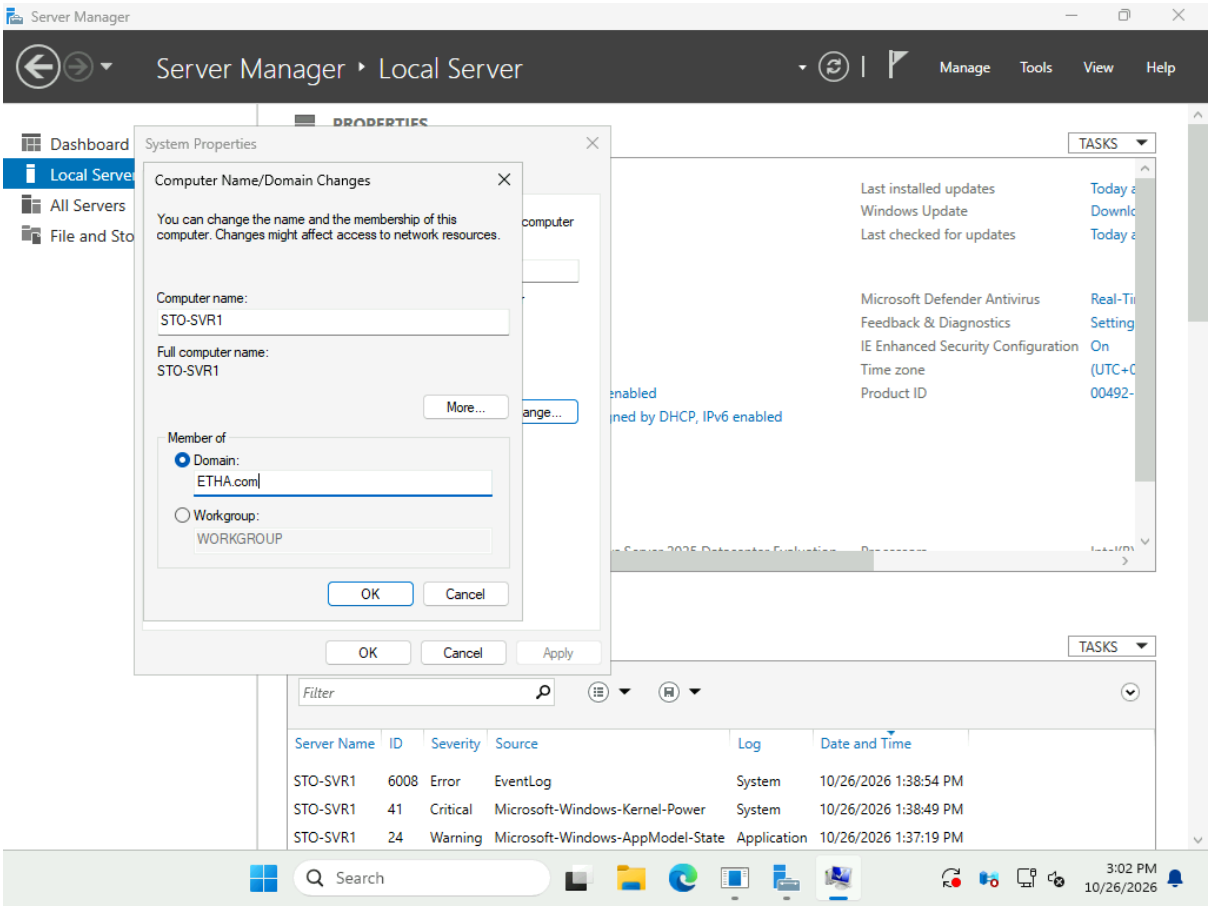

389: LDAP (Lightweight Directory Access Protocol) for accessing Active Directory.

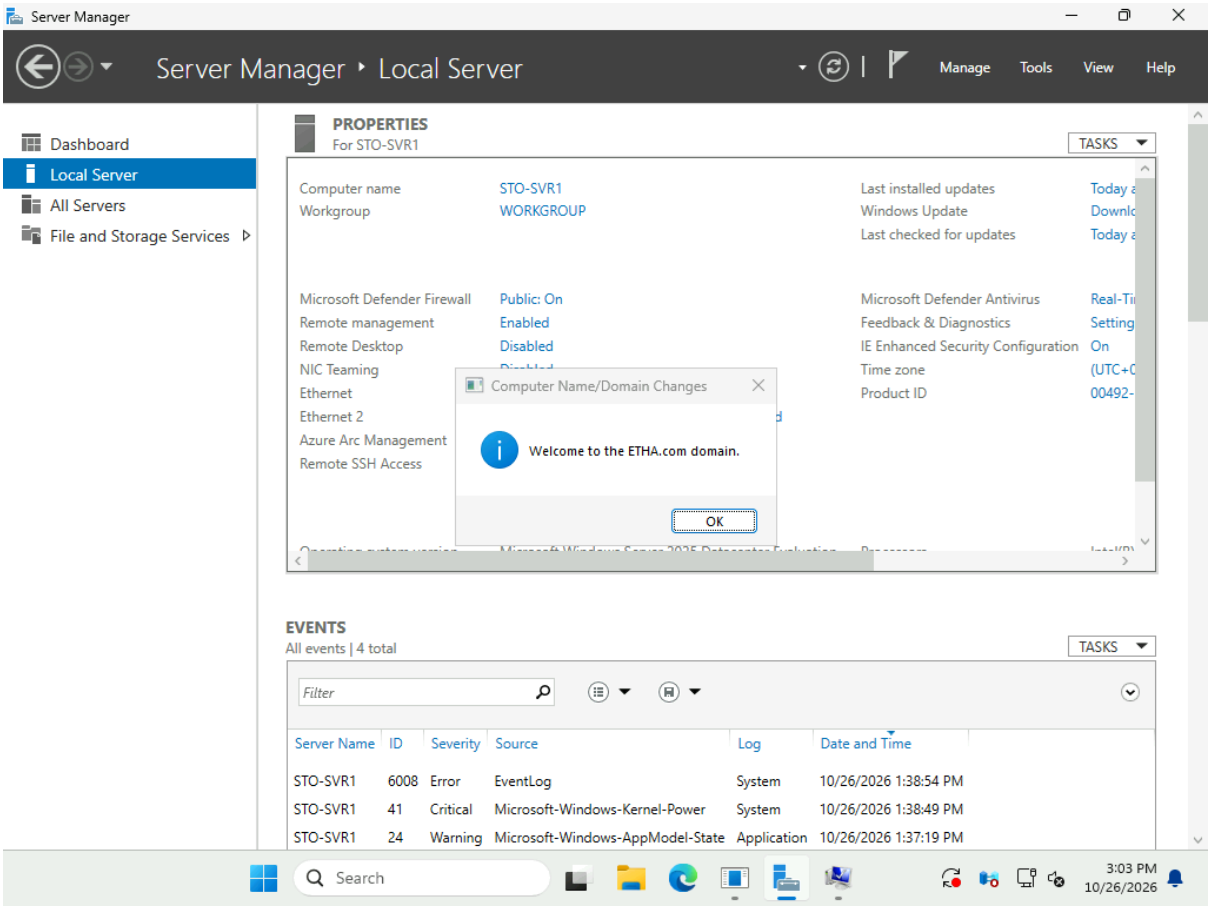

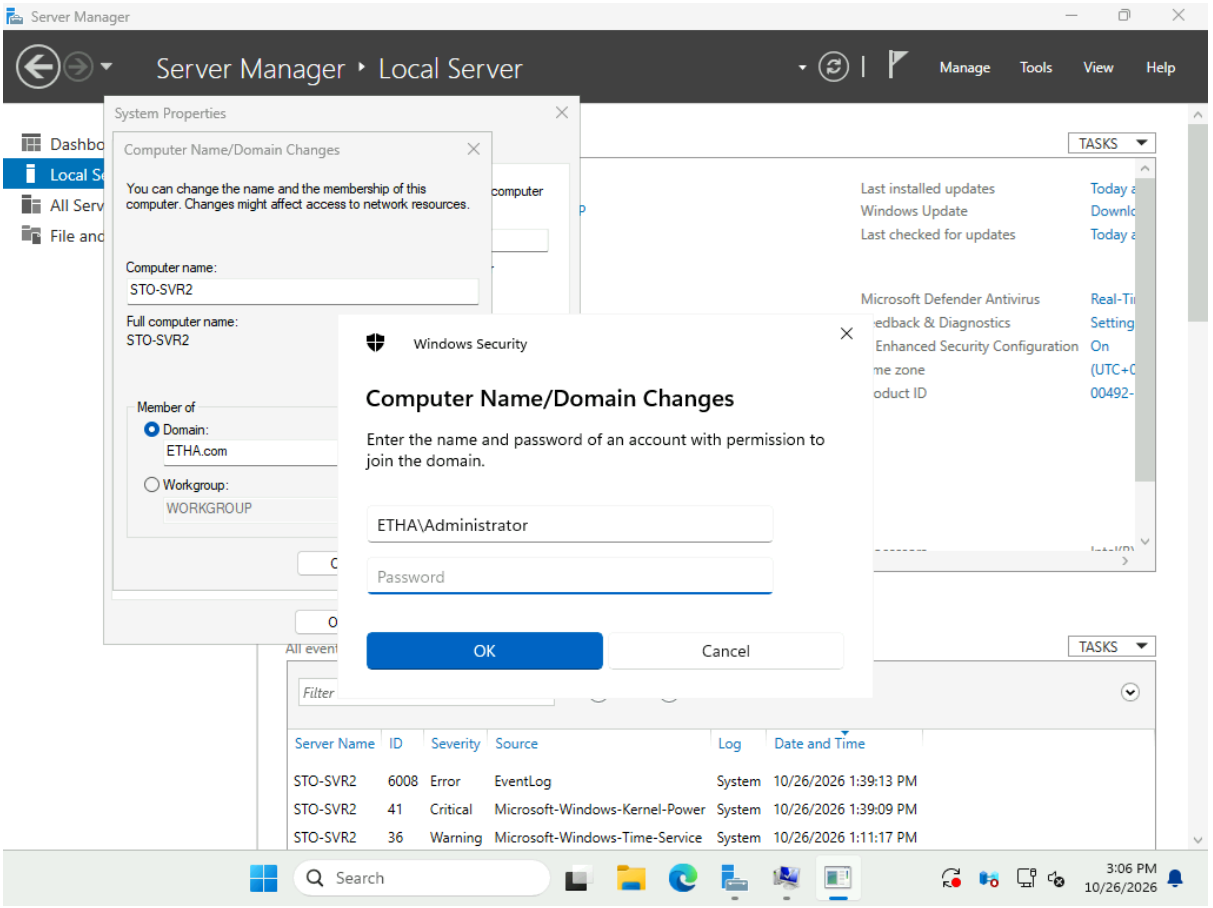

Task 4: Add the STO-CORE as a Member server to the domain

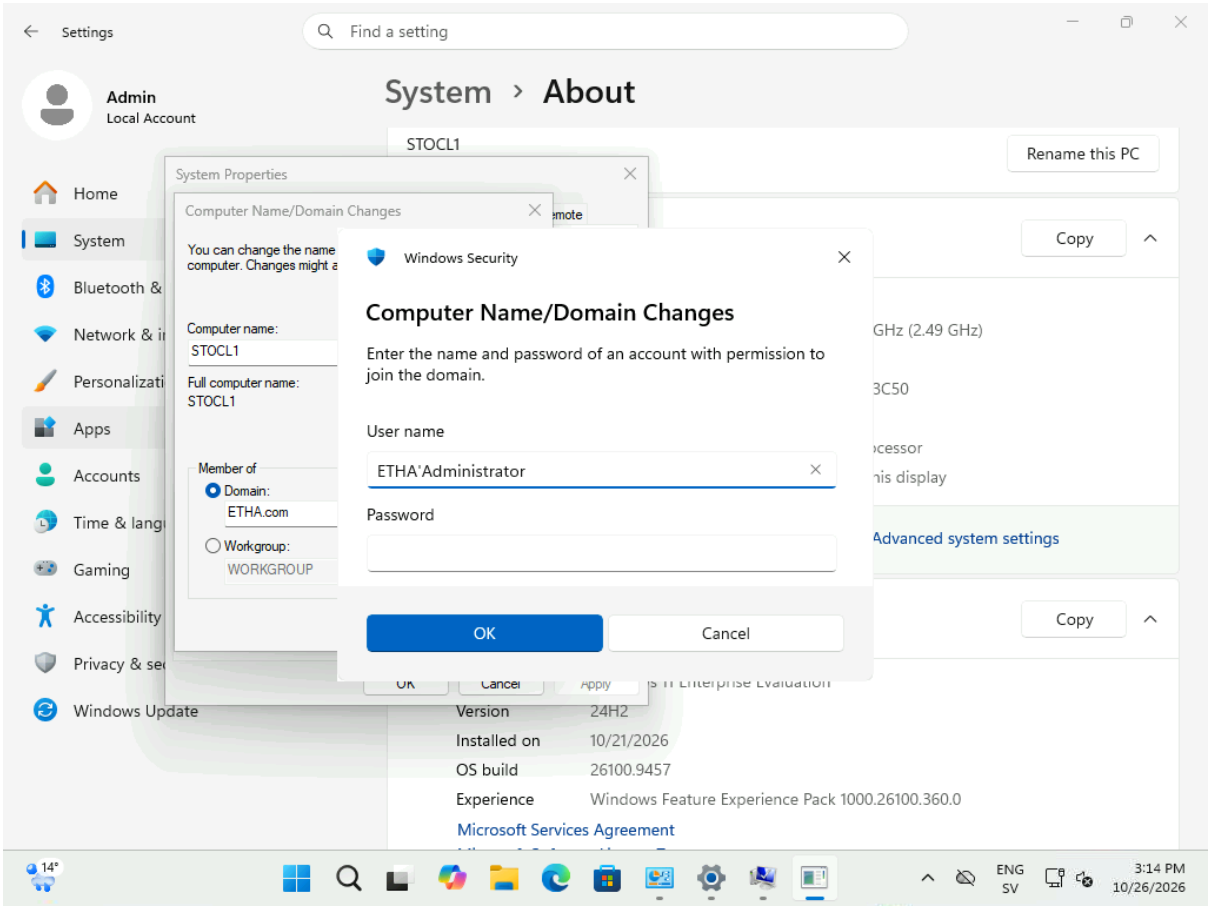

Task 5: Add STO-SVR1 and STO-SVR2 as Member Servers to the domain.

Task 8: Test the availability of the ETHA Domain with one or none Domain Controller.

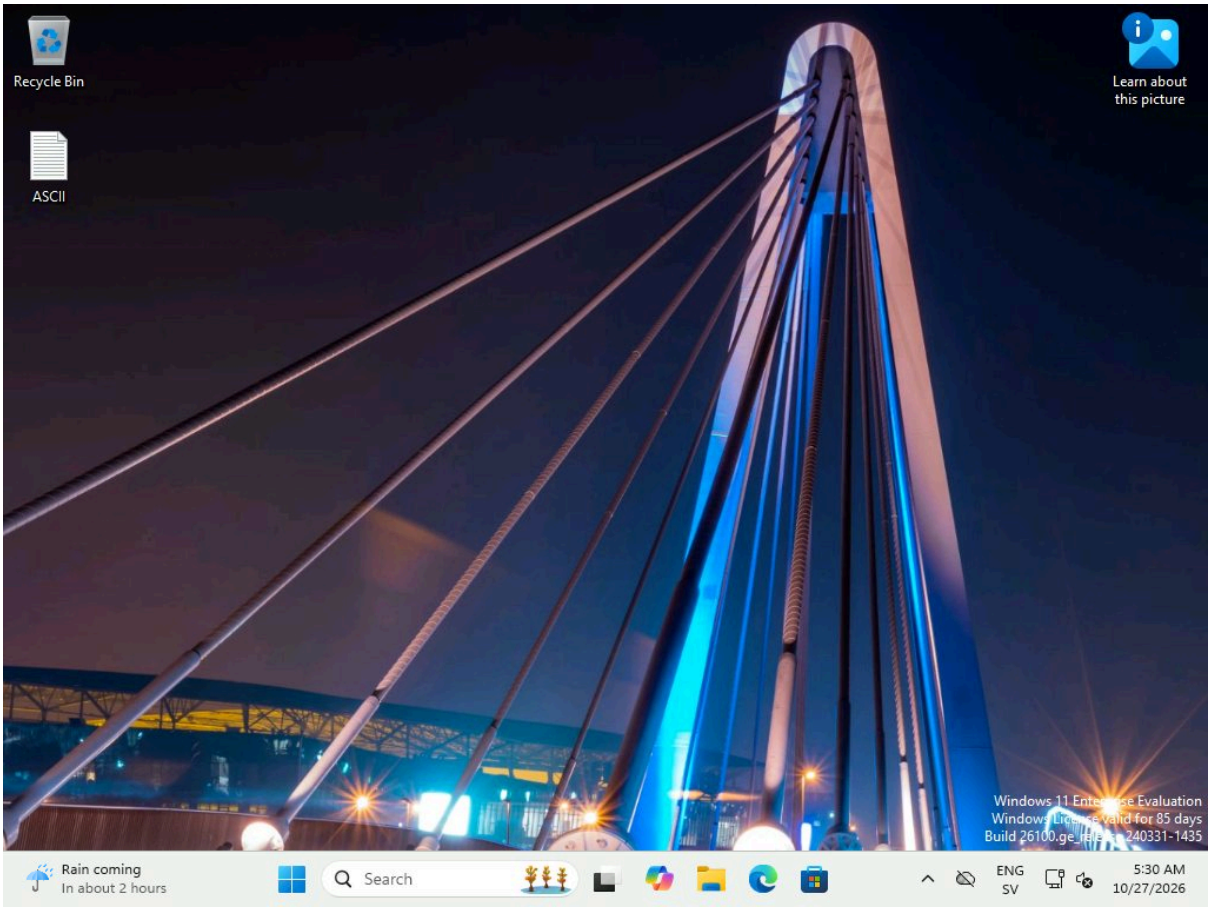

8.2. Switch to the STO-CL1 member client and try to sign in as ETHA\Administrator

8.3. Could you sign in to the Domain? Yes/No _____, Why?

_____

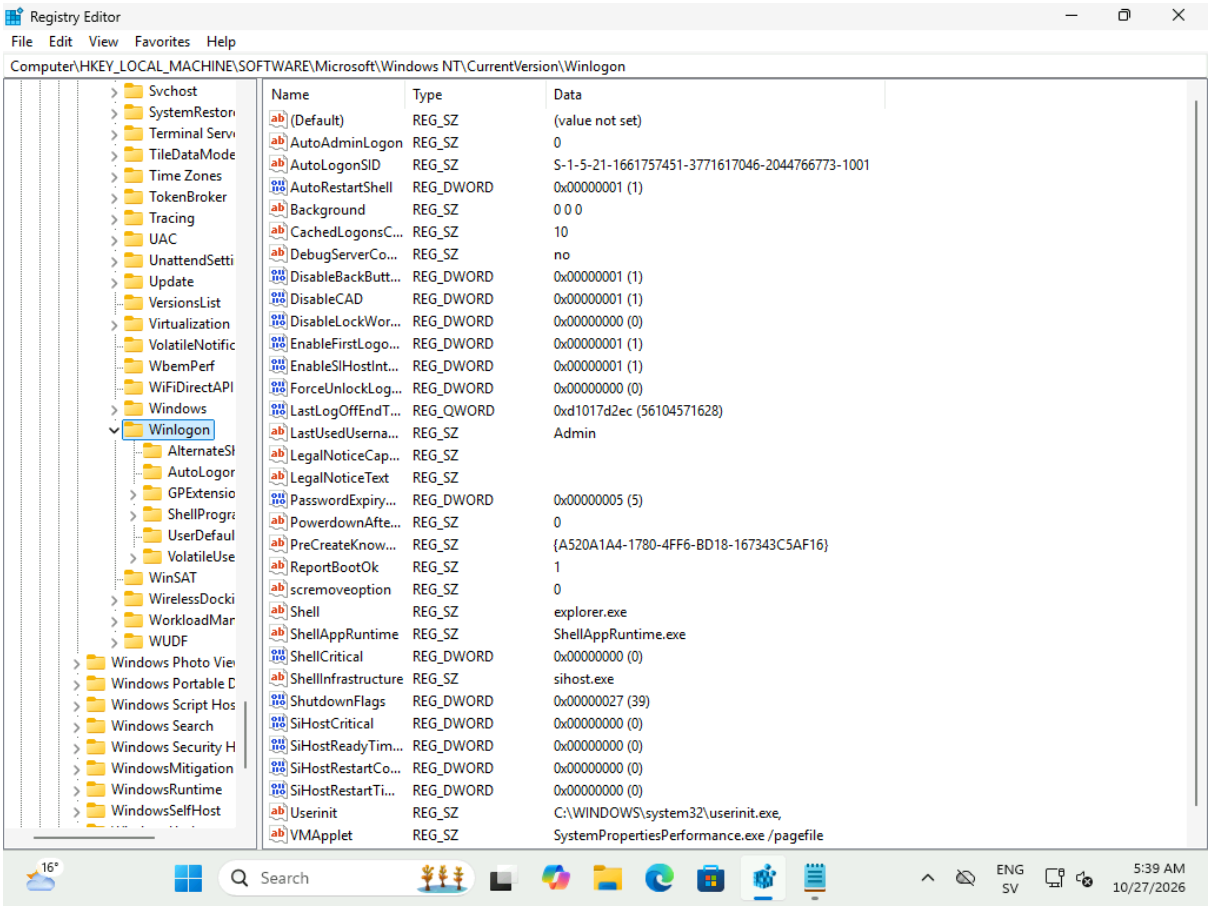

yes: STO-SVR1 can provide domain authentication, it is functioning and reachable.

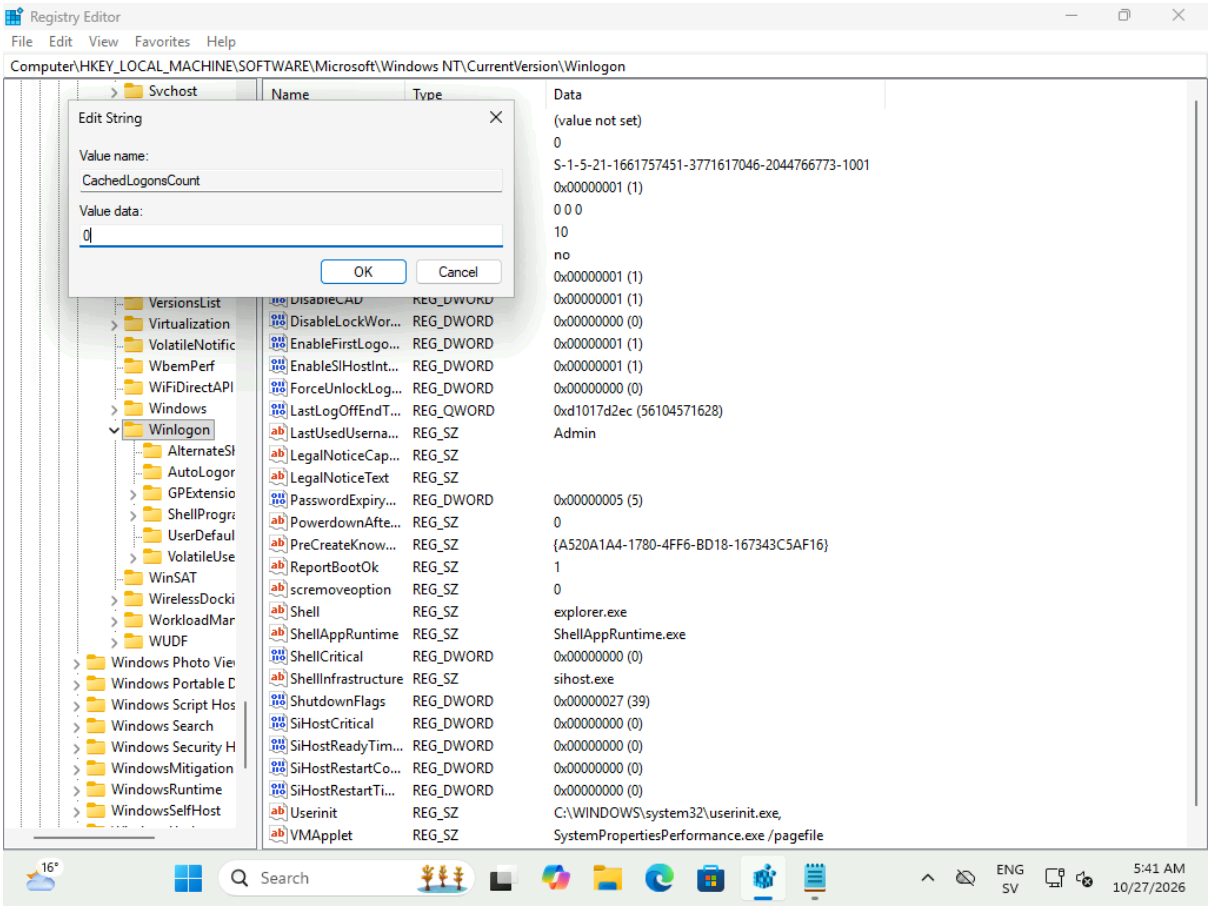

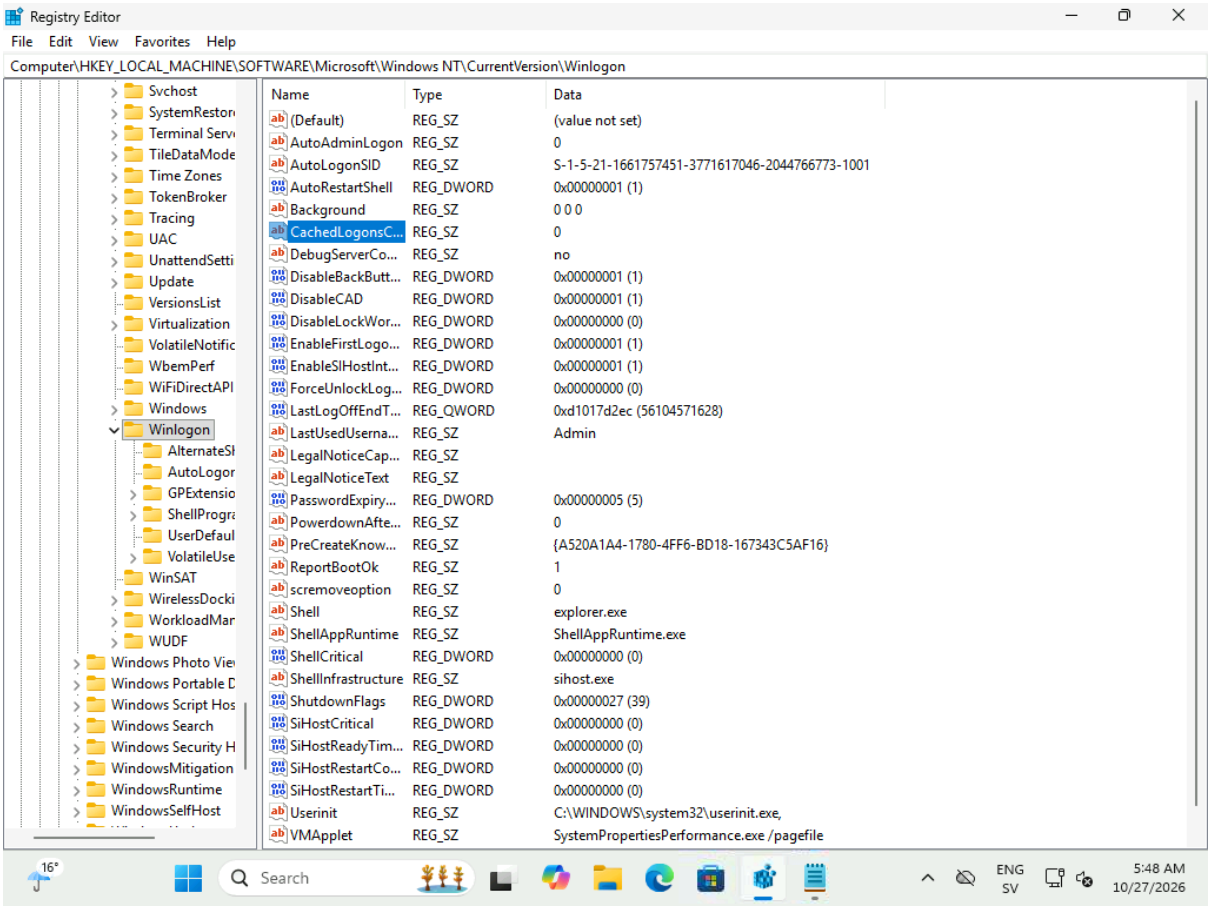

8.6. Could you sign in to the Domain? Yes/No _____, Why?

_____

Yes. I could sign in because Windows used cached domain credentials from a previous successful login.

Active Directory Domain Services Installation Wizard
Delegation of RODC Installation and Administration
The user or group that you specify will be able to attach a server to the RODC account that you are creating now and complete the RODC installation. They will also have local administrative permissions on this RODC.
To simplify administration, you should specify a group and then add individual users to the group.
Group or user:
ETHA\Administrator
Set...
Other accounts can also inherit permissions on this RODC, but those accounts will not have local administrative permissions on this RODC unless you add those accounts explicitly.
